

KG - Fruits Day

Celebration of health, skill, and joyful learning.

Fruits Day bloomed like a morning orchard. Little hands washed, peeled, and sliced—learning independence with every gentle cut.

Discovering colours, textures, and tastes through EVS-integrated learning.

Christmas Celebration

Welcoming Our
First Little
Blossom in
Pre-KG

Just like the season's first bloom, this admission brings warmth, promise, and quiet excitement to our early learning space. May this **first little star** be the beginning of many bright stories to unfold in the SNM family.

Drawing & Colouring

Our young artists painted the skies with imagination as they stepped into the Interschool Drawing and Colouring Competition. Many students participated with pride, their strokes bold, their colours brave.

Children's Day

Our teachers stepped onto the stage, conducting a special assembly filled with warmth and surprise. Curious questions, cheerful answers, and classrooms that echoed with fun and freedom. The day sweetened further with a cake-cutting ceremony, followed by sweets and thoughtful gifts—a little reminder of how cherished our children truly are.

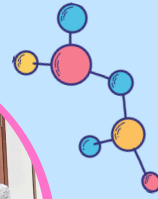

STEAM Lab

children learn to observe, think creatively, and discover how things work—all while having lots of fun. Our STEAM sessions continue to spark curiosity and confidence in every young learner!

Experiential Learning

By exploring real-life situations, observing, experimenting, and working together, students connect concepts to the world around them. These experiences help build confidence, curiosity, and a deeper understanding—making learning both joyful and memorable!
